## bruAPP Notes

[Top of Page](#)

- All configurations implement BRU Server client/server-based backup software; running under the backup-focused bruAPP/OS operating environment.
- FC or SCSI HBA'S (Host Bus Adapters) are not field installable - order at time of purchase if future use of external Fibre-Channel or SCSI tape technology is planned (SAS HBA installed by default in all models).
- Disk capacities quoted are based upon 500 GB or 1.0 TB drives - configurations and pricing may be amended as larger capacity drives are tested, certified, and become available.
- External tape drive and tape library pricing can be quoted.
- Custom bruAPP configurations can be quoted upon request.

All prices are in United States Dollars and are subject to change without notice.
